

Tips to make the most of this page:

- Feeling overwhelmed by all the colours? Don't worry, you can always ignore the extremes, change all As to Bs and Es to Ds. Still too much? Feel free to ignore the letters.

- We also left some space so you can write down the marker/pencil number or name in it, so it's easier to go back to the right colour.

- Did you like this page? Visit our website (castelarts.co.uk or scan the QR code) where you can find out how to buy this and other colouring books.

- The Frames have no numbers. Colour them as you like.
- Experiment with colours as you go—try making each section a little lighter or darker, or even blending in a soft secondary colour. These variations will add depth and make your artwork even more interesting.
